

In this Announcement:

- [FHA Catalyst: Claims Module Information on Payment Supplement XML Requirements](#)
- [Reminder: FHA Catalyst Mortgagee-ID Reminder](#)

See below for details.

---

### **[FHA Catalyst: Claims Module Information on Payment Supplement XML Requirements](#)**

The Federal Housing Administration (FHA) published [Mortgagee Letter \(ML\) 2024-02](#) on February 21, 2024, which introduced the new Payment Supplement loss mitigation option.

To support the implementation of ML 2024-02, FHA has updated its Claims Module for Claim Type 33 - Payment Supplement. Mortgagees must use FHA's newly updated claims XML v1.8 for Payment Supplement bulk submissions starting May 1, 2024. Mortgagees may continue to use the current XML v1.7 for all other claims submissions.

For more information on implementing the XML v1.8 for bulk submissions in FHA Catalyst, view the [FHA Catalyst: Claims Module – Single Family Forward Claims Required Fields Summary](#) and [Claims Bulk Submission XML Input File](#) available on the [FHA Catalyst: Claims Module](#) webpage.

---

### **[Reminder: Mortgagee-ID Requirement for Users of All FHA Catalyst Modules](#)**

For security purposes, all Single Family FHA Catalyst users must be registered users of FHA Connection and have an active Mortgagee-ID (M-ID) as part of their FHA Catalyst profile. An FHA Catalyst mortgagee administrator must enter an M-ID into a user's FHA Catalyst profile as well as grant access to FHA Connection to obtain an M-ID for users currently without one.

Consistent with [FHA INFO 2023-50](#), the M-ID requirement does not apply to FHA Catalyst: Claims Module users identified as "Contractors" in their FHA Catalyst profile.
